---

## Objective

To land a job in web development that offers a stimulating learning environment for developing and putting into practice new ideas for the organization's development. Looking for entry-level employment where I can develop my abilities as a web developing expert and help a firm succeed overall.

---

## Education

<b>BE - Electronics and Communication Engineering</b>	( 2019 - 2023 )
JJ College of Engineering and Technology	8.4 cgpa
<b>HSC</b>	( 2018 - 2019 )
ST Joseph's College Higher Secondary School	69%
<b>SSLC</b>	( 2016 - 2017 )
ST Joseph's College Higher Secondary School	93%

---

## Skills

### Front-End Development

HTML, CSS, Javascript

### Framework

Bootstrap, Angular

### Back-End Development

Node.js, Express.js

Java, Python

**Database -** Mongo DB

---

## Project

**Angular** : To create a login form of both front-end and back-end logics using angular v15, express, mongodb integration, prioritizing efficiency, user friendliness, and seamless data management.

**Portfolio** - To create a personal portfolio using the languages of html, css and JavaScript.

**Python** : Modern GUI for College Application Form using Python Tkinter with Pillow - Developing a Python Tkinter GUI application for college application forms with Pillow and MySQL integration, prioritizing efficiency, user-friendliness.

**College** - Real Time Hybrid Fire Detection in Agro-Forestry Area Based on Wireless Sensor and Vision Networks - Develop an IoT system for early agroforest fire detection, prediction, and containment with instant alerts and automated firefighting.

---

## Achievements & Awards

**Livewire Hackers** : Nationwide collaboration, runner-up for coding excellence, emphasizing six remote work logics.

**Engineer's Day** : Secured first prize on python Tkinter project - Modern GUI and secured third prize on java project - Online quiz test.
